# ColorCraft

WRITTEN ENTIRELY IN MACHINE LANGUAGE FOR FAST ACTION

Create special effects and real animation **without programming** using the built-in graphics keys.

Learn about an editor, what it does, and how to make it do what you want.

Learn about memory and storage. Save screens to show all your friends.

The best feature of COLORCRAFT is the RUN command to turn your screens into a moving picture. Whether you want to create a slide show or an action-packed cartoon, **COLORCRAFT makes it easy.**

While computing may be interesting, the most important thing you can learn while using COLORCRAFT is how to **have fun with your VIC.**

CREATE YOUR OWN CARTOONS ON T.V.
